Bilateral Meetings

- Day 1

Description

OCEAN ORCHIDS SLOVENIA Ocean Orchids is a fifteen-year-old company with forty employees in the extreme northeast of Slovenia, which is engaged in the cultivation of 2 million orchids yearly on the surface of 4 ha. Our company is the biggest Slovene Phalaenopsis producer in this part of Europe and in radius of 500 km. We generate about 80 percent of the turnover with exports and hope to grow domestically and internationally even more in 2019. At Ocean Orchids, we care about our environment and want to make sure to leave a good legacy for future generations. Because of how they were grown, Ocean Orchids orchids have the smallest footprint in Europe. Target Countries: Hungary, Slovakia, Check Republic, Romania, Bulgaria, Serbia,
